

STARLIGHT SKYLIGHTS

Starlight Skylights' Architectural Series

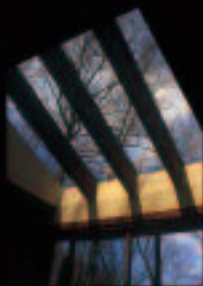

Starlight Skylights' Architectural Series skylights provide

designers with an unlimited array of spectacular solutions to everyday lighting applications. Most models are available in surface mount, lite systems and tubular systems covering a full range of sizes and configurations. We offer a wide variety of glazing options, including tempered and/or laminated glass, acrylic, polycarbonate and extruded polycarbonate.

Starlight Skylights' Architectural Series skylights can be shipped fully or partially assembled. Trained professional skylight technicians assemble the skylights in our controlled shop environment, saving time, labor and frustration in the field. Our customers rave about the added convenience provided by this unique feature.

SINGLE & DOUBLE PITCH TANDEMS

Tandems include Ridge Mounts, Lean-To's and Single Pitch Tandems. Tandems are available in structural and low-profile skin systems to suit any architectural design.

CONTINUOUS VAULTS

Barrel Vaults, Half Rounds and Quarter Rounds make great awnings as well as stylish skylights.

PYRAMIDS

Pyramids with square, octagonal or polygon bases are our most popular models. Simple but elegant, pyramids can be used in clusters for added effect.

RIDGE LIGHTS

Ridge Lights, with hipped or gabled ends, are available in custom widths and unlimited lengths to suit any situation.

STRUCTURAL DOME SKYLIGHT

Structural dome skylights give dramatic effect to any installation, illustrating the flexibility and virtually unlimited custom options available.
